EDUCATION

Peter the Great St. Petersburg Polytechnic University	2016–2017
Russian Language Program	St. Petersburg, Russia
• Completed advanced Russian studies, enhancing cross-cultural communication.	
Northwest University	
Chinese Language Program	2019–2021
• Completed HSK 5 (Score: 276).	Xi'an, Shaanxi, China
Changchun University of Science and Technology	2021–2025
BEng Artificial Intelligence	Changchun, Jilin, China
• Focused on machine learning, computer vision, and software engineering.	
Hangzhou Normal University	2025–Present
MSc Electronic Information	Hangzhou, Zhejiang, China
• Research in AI-powered image symmetry and embedded systems.	

PROJECTS

SymmetryVision - AI Image Symmetry Detection	10/2025
Built full-stack image symmetry detection system using FastAPI, Next.js, and OpenCV. Achieved 90%+ accuracy and processed images 100× faster than manual methods.	
Momentz - Social Media Platform	09/2024
Developed complete social app with Spring Boot backend, JWT authentication, and responsive JavaScript frontend. Deployed on Render with continuous uptime monitoring.	
Aerora — Weather Travel Dashboard	05/2025
Created real-time weather dashboard integrating OpenWeather API and localStorage. Designed adaptive, timezone-aware UI with smooth global clock updates	
Tetris (Meniň Çagalygym – My Childhood)	11/2024
Recreated classic Tetris game with RESTful API, H2 database leaderboard, and cross-platform optimization achieving 60 FPS on desktop and mobile.	

SKILLS

Programming	Java, Python, JavaScript, TypeScript, SQL, HTML/CSS, React, Node.js
Frameworks	Spring Boot, Spring Security, Spring Data JPA, Maven, Lombok, Hibernate
Developer Tools	Git, IntelliJ IDEA, Postman, VS Code, Browser DevTools
Databases	H2 Database, MySQL
Platforms	Render, GitHub, UptimeRobot, OpenWeather API
Languages	English, Russian, Chinese, Turkmen, Turkish
